### Summary report

**Description:** Blood donation is a practice of donating healthy blood to people in need. People also tend to store blood in blood banks for future use. It is a sign of humanity which helps in uniting people of different religion, caste, and creed.

Blood is one of the essential fluid in our body, which helps the body to function smoothly. Blood Donation is an act of donating healthy blood to needy people. Due to excessive loss of blood, a person may die. Therefore, we can say that blood donation is an act of saving lives. 14th June is celebrated all over the globe as Blood Donor Day, where people all over the world, engage in spreading about this life-saving act. Many blood donation camps are held on that day, and millions of people across the globe actively participate in the program. Blood donation is beneficial in many ways, such as if a person is severely ill or has met an accident where he lost a considerable amount of blood; the donated blood comes into play, which helps the patient to recover gradually.

NSS Volunteers, Students and Faculty of PSCMR CET, Donated blood for the needy people through new city blood bank. Dr.K.Sri Rama Krishna, Principal of PSCMRCET, expressed his gratitude to the NSS unit of the college for its continuous endeavor in this regard
