1.2.1. Value added courses (with 30 or more contact hours) offered during 2019-20

S.No	Name of Add on /Certificate programs offered	Course Code	Duration of course
1	A Two week short term course on "The Electricity Act & Safety With Electricity"	19-20/ee/01	19.08.2019 to 02.09.2019
2	A Two Week Certificate Program on Land Use Land Cover Classification Using Remote Sensing	19-20/ec/01	28.08.2019 to 03.09.2019
3	Certificate course on "Fundamentals of Computer Languages"	19-20/cs/01	02.09.2019 to 21.09.2019
4	Certification course on "IOT Applications using Arduino and Rasberry PI"	19-20/cs/02	02.09.2019 to 21.09.2019
5	A Two Week Certificate Program on Signal processing and AI	19-20/ec/02	09.09.2019 to 23.09.2019
6	A Certificate course on"3Ds Max"	19-20/ci/01	09.09.2019 to 25.09.2019
7	A Two week certification course on "Matlab with Simscape Power Systems"	19-20/ee/02	14.09.2019 to 27.09.2019
8	Certification course on Communication skills for workplace success	19-20/mb/03	03.10.2019 to 06.11.2019
9	Certification course on "Data Science"	19-20/cs/03	18.11.2019 to 18.12.2019
10	Short term course on "AWS Cloud Computing"	19-20/cs/04	27.11.2019 to 03.12.2019
11	Crash Course on Modalities of GST	19-20/mb/02	02.12.2019 to 24.12.2019
12	A Two Week Certificate Program on "Practical Aspects of Embedded systems & IoT"	19-20/ec/03	03.12.2019 to 04.01.2020
13	A Two week certification course on "Electrical Design Estimating and costing"	19-20/ee/03	13.12.2019 to 26.12.2019
14	Short term training program on Microsoft Excel Essentials	19-20/mb/01	07.01.2020 to 12.02.2020
15	A Three week certificate course on "JAVA"	19-20/me/04	20.01.2020 to 08.02.2020
16	A Three week certificate course on "HTML"	19-20/me/01	20.01.2020 to 08.02.2020

17	A Three week certificate course on "Corporate Builders"	19-20/me/03	10.02.2020 to 29.02.2020
18	A Two week certificate course on "DESIGNING SOLAR ENERGY PV SYSTEMS"	19-20/me/02	03.03.2020 to 17.03.2020
19	A Certificate Program on "SCILAB & its Applications"	19-20/ec/04	25.05.2020 to 26.06.2020

A Two Weeks Short Term Course

On

"The Electricity ACT & Safety With Electricity"

All II year students are here by informed that department of EEE is organizing a Two Weeks Short Term Course On **"The Electricity ACT & Safety With Electricity"**will be held from 19-08-2019 to 02-09-2019 at 9:30am. So all the students of II EEE are requested to attend the course given in the prescribed schedule and make it grand success.

Therefore all II EEE students are required to utilize this opportunity to learn "The Electricity ACT & Safety With Electricity" concepts and take benefit of this short term course.

About the Institute

PSCMR College of Engineering & Technology is SKPVV Hindu High Schools Committee's latest contribution to the cause of education, this time in a new discipline Engineering & Technology. This shows the Committee's eagerness to promote education in as many different areas as possible. The Committee, a non-profit academic organization that had been managing very successfully only schools and arts & science colleges till 2008, then extended its educational service activities to technology education area, and that led to the starting that year, of Potti Sriramulu Chalavadi Mallikarjuna Rao College of Engineering & Technology, almost the first such institute within the Vijayawada city limits. The college is affiliated to JNTU (K) made a modest beginning with an intake of 240 students, 60 each in the branches of ECE, CSE, EEE and IT. MBA course was added the next year, that is, in 2008. Making steady progress, it has now on its rolls 1200 students in two sections of ECE and CSE each, and one section each in EEE and IT. In only its fourth year of functioning, the college has shown its potential for excellence in academics, as shown in the success rate of the students, and is making all out efforts to secure placement for its students. For a sound engineering education and assured post qualification career, PSCMRCET is among the best destination.

The institute is accredited by NAAC and its programmes (CSE, EEE, ECE) are accredited by National Board of Accreditation (NBA). The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

About the Department

EEE Department was founded with a threefold mission in teaching, research and public service. Based on that foundation, the mission of the Department in all major fields of electrical engineering, is to instill in students the attitudes, values, vision and training that will prepare them for lifetimes of continued learning and leadership, to develop the ability and passion to work wisely, creatively and effectively for the benefit of the society.

A Two Week Short Term Course on

The Electricity ACT & Safety with Electricity

Venue: Mini Seminar Hall   Date: 02-09-2019

Summary report

Description:

A two week short term course on "The Electricity ACT & Safety with Electricity" is conducted in the department of electrical and electronics engineering for II EEE students on 19-08-2019 to 02-09-2019 and made the sessions lively and gave important information to the students regarding career opportunities in this area.

ABOUT THE INSTITUTION

PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY (PSCMR), established in the year 2008, is sponsored by **SKPVV – Sri Kanyaka Parameswari Vissamsetty Venkataratnam (SKPVV) Hindu High Schools Committee.** The society was formed by a group of philanthropists from business community of Vijayawada, Krishna District, Andhra Pradesh in the year 1906. They contributed their might and collected donations from the like minded people and started primary school to provide education to the poor students of local area and surrounding villages, where there were no schools at that time. The society was registered with the Register of Krishna District in 27th November 1915.

PSCMRCET has been in the forefront imparting high quality technical education. State of the art infrastructure in all branches of engineering, dedicated and qualified staff, highly conducive environment for teaching-learning process are the hallmarks of this professionally managed institution.

The institute is accredited by NAAC and its programs are accredited by National Board of Accreditation (NBA). The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

ABOUT THE DEPARTMENT

The department offers UG program in **Electronics and Communication Engineering**. The department has qualified, dedicated, experienced and trained faculty with deep sense of commitment towards the students and institution. Teaching faculty with proficiency in various subjects motivates students to participate in research activities and skill development programs. The department has state of the art laboratories with well-equipped hardware and software.

ABOUT THE PROGRAM

- This program aims to land cover and what covers the surface of the earth. The land use describes how the land is used. Examples of land cover classes include: water, snow, grassland, deciduous forest, and bare soil. Land use examples include: wildlife management area, agricultural land, urban, recreation area etc.

- The consequences of these changes have become more significant as the world's population grows, the available land base declines, and the resiliency of our environment becomes increasingly taxed.

- Planners and resource managers need a reliable mechanism to assess these consequences by detecting, monitoring, and analyzing land-use changes quickly and efficiently.

TOPICS TO BE COVERED

- Components of remote sensing
- Interaction with the target.
- Recording of energy by the sensor.
- Transmission, reception, and processing
- Interpretation and analysis
- Concept of spectral signatures
- Earth observation systems
- Performance evaluation matrices for different algorithms

OBJECTIVE OF THE PROGRAM

- Identification of land cover establishes the baseline from which monitoring activities (change detection) can be performed.

- It provides the ground cover information for baseline thematic maps. Land use refers to the purpose the land serves, for example, recreation, wildlife habitat, or agriculture.

- It demands for an efficient landcover detection system currently exists among a variety of Local, state, federal, and private organizations. While extensive research has been completed on the effectiveness of various change detection technologies, little work has been done to implement the technologies in a production environment.

Department of
Electronics and Communication Engineering

Date: 4.9.2019

REPORT

Name of the Program:	Certificate course on Land Use Land Cover Classification Using Remote Sensing
Duration:	28.8.2019 to 3.9.2019
Resource Person Details:	Dr. A.Ravi, Professor, ECE HoD, PSCMR College of Engineering & Technology

Number of Students Attended: 212

The department of Electronics and Communication Engineering organized a Certificate course on Land Use Land Cover Classification Using Remote Sensing from 28.8.2019 to 3.9.2019.

The Resource speaker Dr.A.Ravi ,addressed the participants and explained about the importance of Land Cover Classification Using Remote Sensing in real time world. He also gave valuable information regarding applications of Remote Sensing in today's context.

TOPICS COVERED:
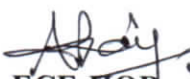

- Components of remote sensing
- Energy source or illumination
- Interaction with the target.
- Recording of energy by the sensor.
- Transmission, reception, and processing
- Interpretation and analysis
- Concept of spectral signatures
- Earth observation systems
- Performance evaluation matrices for different algorithms.

PRINCIPAL
Potti Sriramulu Chalav
College of
Kot

OUTCOMES:

1. Understand the concepts of Photogrametry and compute the heights of objects
2. Understand the principles of aerial and satellite remote sensing, Able to comprehend the energy interactions with earth surface features, spectral properties of water bodies .
3. Understand the basic concept of GIS and its applications, know different types of data representation in GIS
4. Understand and Develop models for GIS spatial Analysis and will be able to know what the questions that GIS can answer are
5. Apply knowledge of GIS software and able to work with GIS software in various application fields
6. Illustrate spatial and non spatial data features in GIS and understand the map projections and coordinates systems
7. Apply knowledge of GIS and understand the integration of Remote Sensing and GIS.

CIRCULAR

All **I** year students of CSE Department are informed to attend the Certificate course on **"Fundamentals of Computer Languages"** by Mr. I. Murali Krishna. Associate Professor, Department of CSE, from 02-09-2019 to 21-09-2019.

Timings: 4:00 P.M. to 6:00 P.M.

About the Institute

PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY (PSCMR), established in the year 2008, is sponsored by **SKPVV – Sri Kanyaka Parameswari Vissamsetty Venkataratnam (SKPVV) Hindu High Schools Committee.** The society was formed by a group of philanthropists from business community of Vijayawada, Krishna District, Andhra Pradesh in the year 1906. They contributed their might and collected donations from the like minded people and started primary school to provide education to the poor students of local area and surrounding villages, where there were no schools at that time. The society was registered with the Register of Krishna District in 27th November 1915.

PSCMRCET has been in the forefront imparting high quality technical education. State of the art infrastructure in all branches of engineering, dedicated and qualified staff, highly conducive environment for teaching-learning process are the hallmarks of this professionally managed institution.

The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

About the Department

The department offers UG program in **Computer Science & Engineering**. It has been established in the year 2008 with the current annual intake of 120 students. Computer Science Engineering (CSE) is one of the most sought after course in engineering. Today, Computer Science Engineers are very highly sought after as they are now developing the most complex and innovative forms of technology that we all use today.

Three Week Certification Course
On
Fundamentals of Computer Languages
02-09-2019 to 21-09-2019

Organized by
DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY
Vijayawada, Andhra Pradesh
Website: www.pscmr.ac.in.

About the course

The three-week certification course on Fundamentals of Computer Languages aims to introduce the fundamentals of Computer Languages using C and Python. However, course will be based on their company relevant training. Overall, this course is serving to be a great platform for students.

Three-week certification course on Fundamentals of Computer Languages using C and Python provides a close summary on control statements, which are useful to place in any technical company like TCS, Wipro and etc.

Objectives

- Understand the different types of solving methods of the problems
- Solve the problems of HackerRank

Outcomes

- Students are able to crack the HackerRank problems

Topics to be covered

- Programs using conditional statement
- Programs using loops
- Patterns
- Programs on Arrays and strings
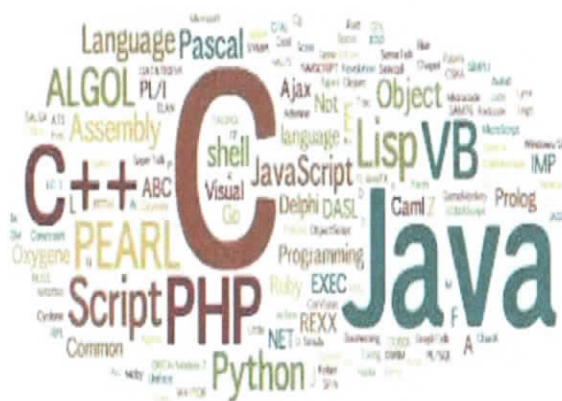

Resource Persons

Mr. I Murali Krishna, an academician with strong teaching and research experience and has been working as an Associatet Professor, Potti Sriramulu Chalavadhi Mallikarjuna Rao College of engineering and technology, Kothapeta, Vijayawada, Krishna District, Andhra Pradesh for the past nine years.

Eligibility

The program is intended for I year students of CSE Department.

Registration

Registration is FREE

Course Co-ordinator   HOD Signaturge   Principal

Course Name: "Fundamentals of Computer Languages"

Course Duration: 02-09-2019 to 21-09-2019

Resource person:

Mr. I Murali Krishna, an academician with strong teaching and research experience and has been working as an Assistant Professor, Potti Sriramulu Chalavadhi Mallikarjuna Rao College of engineering and technology, Kothapeta, Vijayawada, Krishna District, Andhra Pradesh for the past nine years.

Topics Covered:
- Programs using conditional statement
- Programs using loops
- Patterns
- Programs on Arrays and strings

Objectives:
- Understand the different types of solving methods of the problems
- Solve the problems of HackerRank

Learning outcomes:
- Students are able to crack the HackerRank problems

The three-week certification course on Fundamentals of Computer Languages aims to introduce the fundamentals of Computer Languages using C and Python. However, course will be based on their company relevant training. Overall, this course is serving to be a great platform for students. Three-week certification course on Fundamentals of Computer Languages using C and Python provides a close summary on control statements, which are useful to place in any technical company like TCS, Wipro and etc.

About the Institute

PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY (PSCMR), established in the year 2008, is sponsored by **SKPVV – Sri Kanyaka Parameswari Vissamsetty Venkataratnam (SKPVV) Hindu High Schools Committee.** The society was formed by a group of philanthropists from business community of Vijayawada, Krishna District, Andhra Pradesh in the year 1906. They contributed their might and collected donations from the like minded people and started primary school to provide education to the poor students of local area and surrounding villages, where there were no schools at that time. The society was registered with the Register of Krishna District in 27th November 1915.

PSCMRCET has been in the forefront imparting high quality technical education. State of the art infrastructure in all branches of engineering, dedicated and qualified staff, highly conducive environment for teaching-learning process are the hallmarks of this professionally managed institution.

The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

About the Department

The department offers UG program in **Computer Science & Engineering**. It has been established in the year 2008 with the current annual intake of 120 students. Computer Science Engineering (CSE) is one of the most sought after course in engineering. Today, Computer Science Engineers are very highly sought after as they are now developing the most complex and innovative forms of technology that we all use today.

Three Week Certification Course
On
IOT Applications using Arduino
And
Raspberry PIE

02-09-2019 to 21-09-2019

Organized by
DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING
PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY
Vijayawada, Andhra Pradesh
Website: www.pscmr.ac.in.

About the course

The three-week certification course on Fundamentals of Python aims to introduce the fundamentals python concepts, control structures, functions & modules an etc. which is useful to solve company relevant problems in less number of lines of code. Overall, this course is serving to be a great platform for students.

Objectives

- Understand the language Python
- Uses different control statements
- Uses of different functions and OOP's concepts

Outcomes

- Students get familiar with Python
- Students are able to use Python to solve many problems

Topics to be covered

- Introduction to Python
- Basic concepts of Python
- Control structures of Python
- Functions & Modules in Python
- Functional programming with Python
- Object Oriented Programming with Python
- Regular Expressions in Python

Resource Persons

Mr. V S R K Prasad G, an academician with strong teaching and research experience and has been working as an Associate Professor, Potti Sriramulu Chalavadhi Mallikarjuna Rao College of engineering and technology, Kothapeta, Vijayawada, Krishna District, Andhra Pradesh for the past eight years.

Eligibility

The program is intended for II year students of CSE Department.

Registration

Registration is FREE

Mr. V S R K Prasad G, an academician with strong teaching and research experience and has been working as an Associate Professor, Potti Sriramulu Chalavadhi Mallikarjuna Rao College of engineering and technology, Kothapeta, Vijayawada, Krishna District, Andhra Pradesh for the past nine years.

Topics Covered:

- Introduction to IoT
- Sensors
- Controllers
- Raspberry PIE

Objectives:

- Understand the IoT technology and its need in livelihood
- Uses different sensors, controllers & processors an communication of exchange data
- Develop IoT real time applications

Learning outcomes:

- Students get familiar with IoT technology
- Students are able to use sensors in different applications

The three-week certification course Main focus to do hands on practical with IOT technology of 21st century. IOT technology learning explores the area of connect and exchange data with other devices and systems over the internet or other communication networks. An IoT ecosystem consists of web-enabled smart devices that use embedded systems, such as processors, controllers, sensors and communication hardware, to collect, send and act on data they acquire from their environments. IoT can also make use of artificial intelligence (AI) and machine learning to aid in making data collecting processes easier and more dynamic. Now a day IoT is one of the most important technologies of everyday life, and it will continue to pick up steam as more businesses realize the potential of connected devices to keep them competitive.

ABOUT THE DEPARTMENT

The department offers UG program in **Electronics and Communication Engineering**. The department has qualified, dedicated, experienced and trained faculty with deep sense of commitment towards the students and institution. Teaching faculty with proficiency in various subjects motivates students to participate in research activities and skill development programs. The department has state of the art laboratories with well-equipped hardware and software.

ABOUT THE PROGRAM

This program aims to signal processing and artificial intelligence tools will be examined for their role in the detection and classification of events, the application of various mathematical transforms and the implementation of rules-based expert systems. We focus further on the review on several implementation methodologies, and a performance comparison of existing implementations are presented.

TOPICS TO BE COVERED

- Learning theory
- Cognitive information processing
- Neural networks
- Classification and pattern recognition
- Nonlinear signal processing
- Graphical models and kernel methods
- Genomic signals and sequences
- Multichannel adaptive signal processing
- Kernel methods and graphical models
- Sparsity-aware learning
- Subspace/manifold learning
- Bayesian and distributed learning
- Smart Grid, games, social networks
- Computational Intelligence
- Data-driven adaptive systems
- Data-driven models
- Multimodal data fusion
- Multiset data analysis
- Perceptual signal processing
- Applications (biomedical signals, biometrics, bioinformatics)

OBJECTIVE OF THE PROGRAM

- The main objective of this program is to provide classification and pattern recognition.
- It provides different graphical models and kernel methods.
- It makes available Bayesian learning and computational Intelligence.
- It makes accessible Data driven adaptive systems and multimodal data fusion.

Department of
Electronics and Communication Engineering

Date: 24.9.2019

REPORT

Name of the Program: Certificate course on Signal Processing and AI

Duration: 9.9.2019 to 23.9.2019

Resource Person Details: Dr. T.Kishore Kumar, Professor

            NIT,Warangal

Number of Students Attended: 72

The department of Electronics and Communication Engineering organized a Certificate course on Signal Processing and AI from 9.9.2019 to 23.9.2019.

The Resource speaker Dr. T.Kishore Kumar, Professor addressed the participants and explained about the importance of signal processing in real time world. He also gave valuable information regarding AI and its usage with signal processing.

Topics Covered:

- Learning theory
- Cognitive information processing
- Neural networks
- Classification and pattern recognition
- Nonlinear signal processing
- Graphical models and kernel methods
- Genomic signals and sequences
- Multichannel adaptive signal processing
- Kernel methods and graphical models
- Sparsity-aware learning
- Subspace/manifold learning
- Bayesian and distributed learning

PRINCIPAL
Potti Sriramulu Chalavadi Mallikharjuna Rao
College of Engineering & Technology
Kothapet, VIJAYAWADA-520 001

- Smart Grid, games, social networks
- Computational Intelligence
- Data-driven adaptive systems
- Data-driven models
- Multimodal data fusion
- Multiset data analysis
- Perceptual signal processing
- Applications (biomedical signals, biometrics, bioinformatics)

OUTCOMES:

- Design user interfaces to improve human–AI interaction and real-time decision-making.

- Evaluate the advantages, disadvantages, challenges, and ramifications of human–AI augmentation.

- Design and develop symbiotic human–AI systems that balance the information processing power of computational systems with human intelligence and decision making.

- Explain the benefits, limitations, and tradeoffs of designing engaging and ethical conversational user interactions, including those supported by chatbots, smart speakers, and other AI-driven, voice-based technologies.

- Design and evaluate conversational interfaces for different users and contexts of use.

CIRCULAR

Date: 06/09/2019

This is to inform you that the Department of Civil Engineering, PSCMRCET is going to organize A Certificate Course on 3ds Max software for II, III, IV year students of Civil Engineering Department from 09/09/2019 to 25/09/2019. Interested students can register their names with Mrs. S. Naga Bhargavi, Assistant Professor, Civil Engineering Department. The program will start by 3PM on 09/09/2019.

About the College:

PSCMR College of Engineering & Technology is SKPVV Hindu High Schools Committee's contemporary contribution to the cause of education with a new discipline in the sphere of Engineering & Technology. The college is under the affiliation of Jawaharlal Nehru Technological University, Kakinada, and Established in 2008 the PSCMRCET has an excellent infrastructure and highly committed, qualified, competent and involved faculty. The college aims at empowering students with social and career oriented education that can benefit themselves and the society, as well. The college is known for its excellent placement record, with good ambience and serenity. The college campus is conveniently located in the heart of the city with easy accessibility from any part of the city.

About the Department:

The Department of civil engineering offers Diploma and B Tech program in Civil Engineering. The vision is to provide quality education and produce skilled man power for innovative solutions in civil engineering to handle society challenges. The department is being nourished by dedicated teaching faculty and highly skilled lab staff. The department is collaborated with NHAI and is also focusing for collaborations with various industries to design relevant curricula and to provide students with an exposure to the real world.

About the Certificate Course:

"3ds Max- 3D Studio Max", is a 3D computer graphics program for making 3d animations and models. Using this software, one can create any kind of Complex model easily.

3D model that provides comprehensive 3D modelling, animation, rendering and architectural visualization. 3D modeling, visualization, and automatic code-based learning are some of the unique features of this software. This software is loaded with an integrated system consisting of modeling tools and templates used to automate repetitive tasks, combine existing functionality in new ways. The software can handle the largest and most complex model and associated Configurations. 3ds Max software is embedded with CAD- like drawing tools with an object- based interface. 3ds Max also supports several rendering models like scanline rendering, Render Man, Indigo Renderer, Maxwell render and Octane render etc.

DEPARTMENT OF CIVIL ENGINEERING

REPORT

Name of the course: Certificate course on **3Ds Max** software

Duration: 09-09-2019 to 25-09-2019

Resource Person: Prof K.V. Lakshmi Narayana

Head of the department

Mail Id: kvlnarayana@gmail.com

The Department of Civil Engineering, PSCMRCET has conducted a certificate course on 3ds Max software from 09 SEPTEMBER 2019 to 25 SEPTEMBER 2019 for the second, third and fourth year Students. "3ds Max- 3D Studio Max", is a 3D computer graphics program for making 3d animations and models. Using this software, one can create any kind of Complex model easily. 3D model that provides comprehensive 3D modelling, animation, rendering and architectural visualization. 3D modeling, visualization, and automatic code-based learning are some of the unique features of this software.

This software is loaded with an integrated system consisting of modeling tools and templates used to automate repetitive tasks, combine existing functionality in new ways. The software can handle the largest and most complex model and associated Configurations. 3ds Max software is embedded with CAD- like drawing tools with an object- based interface. 3ds Max also supports several rendering models like scanline rendering, Render Man, Indigo Renderer, Maxwell render and Octane render etc, . Around 172 students from II , III &IV year attended the certificate course which will be very useful once they enter into the civil industry.

Outcomes:

1. Will get fundamental knowledge of how to build a model.

2. Can create parametric and organic objects, do textures mapping, baking and layering.

3. Can create 3D design of structures like mesh and surface modelling.

4. Can generate detailed and comprehensive reports for every task or model.

5. will learn how to get better interactive and playback performance.

A Two Week Certification course on

"MATLAB with Simscape Power System"

All III year students are here by informed that department of EEE is organizing a Two Week Certification Course On "MATLAB with Simscape Power System"will be held on 14-09-2019 TO 27-09-2019 at 9:30am. So all the students of III EEE are requested to attend the course given in the prescribed schedule and make it grand success.

Therefore all III EEE students are required to utilize this opportunity to learn "MATLAB with Simscape Power System" concepts and take benefit of Certification Course course.

PSCMR College of Engg. & Tech.
Kothapet, VIJAYAWADA-1.

About the Institute

PSCMR College of Engineering & Technology is SKPVV Hindu High Schools Committee's latest contribution to the cause of education, this time in a new discipline Engineering & Technology. This shows the Committee's eagerness to promote education in as many different areas as possible. The Committee, a non-profit academic organization that had been managing very successfully only schools and arts & science colleges till 2008, then extended its educational service activities to technology education area, and that led to the starting that year, of Potti Sriramulu Chalavadi Mallikarjuna Rao College of Engineering & Technology, almost the first such institute within the Vijayawada city limits. The college is affiliated to JNTU (K) made a modest beginning with an intake of 240 students, 60 each in the branches of ECE, CSE, EEE and IT. MBA course was added the next year, that is, in 2008. Making steady progress, it has now on its rolls 1200 students in two sections of ECE and CSE each, and one section each in EEE and IT. In only its fourth year of functioning, the college has shown its potential for excellence in academics, as shown in the success rate of the students, and is making all out efforts to secure placement for its students. For a sound engineering education and assured post qualification career, PSCMRCET is among the best destination.

The institute is accredited by NAAC and its programmes (CSE, EEE, ECE) are accredited by National Board of Accreditation (NBA). The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

About the Department

EEE Department was founded with a threefold mission in teaching, research and public service. Based on that foundation, the mission of the Department in all major fields of electrical engineering, is to instill in students the attitudes, values, vision and training that will prepare them for lifetimes of continued learning and leadership, to develop the ability and passion to work wisely, creatively and effectively for the benefit of the society.

OBJECTIVES :

- Ability to Adapt Your Communication Style

- Active Listening

- Transparency & Empathy

- Clarity & Open Body Language

- Ability to Ask Open-Ended Questions

OUTCOMES :

- Set clear expectations to showcase the skills.

- Communicate relentlessly.

- Illustrate through stories.

- Build Confidence and Be prepared.

- Know your audience.

- Reinforce intent with body language.

- Read the room.

- Ask good questions.

- Listen and encourage input.

- Take feedback seriously.

A REPORT ON

"Communication Skills for Workplace Success"

In the present scenario, boosting about only technical skill is not important to get work done at the workplace. The ability to communicate with the peers, superiors and colleagues is the need of the hour in every workplace. Dr. T. Santhi Sree, in her sessions about the program, insisted the students that, the effective communication skill reduces the office conflicts, lower the risks and make the workplace more enjoyable.

The students, who participated, felt strong and confident in communicating at the workplace and the outcome from the program reaches more than the expected satisfaction levels.

Department of Computer Science and Engineering

Date: 19.12.2019

<u>REPORT</u>

Name of the Program: Certification Course on "Data Science"

Duration   :   18-11-2019 to 18-12-2019

Resource Person Details: Mrs. P.S.Silpa
Assistant Professor.
PSCMRCET.
E-mail: silpa@pscmr.ac.in
Contact: 9966104060

Number of Students Attended: 126

Department of CSE organized a certificate program on **"Data Science"** for **IV CSE** Students by the resource person Mrs. P.S.Silpa from**18-11-2019 to 18-12-2019.**

Main focus of the workshop was to do hands on practical with Data Science (Google CoLab) tool. The field of Data Science is maturing rapidly and demands professionals skilled not only in Statistics, but also in advanced concepts such as Natural Language Processing and Neural Networks. Artificial intelligence and Machine learning (AI & ML) methods leverage the superior computational capabilities of machines that can process large amounts of data, and find patterns and associations through sophisticated algorithms. Many business functions are forced to make decisions, without access to the necessary facts and intelligence, from their own data set to achieve alignment with business objectives. Further, in this digital age, massive amounts of data are being produced by information systems, user devices and IoT devices.

Objectives:
1. Develop the ability to independently solve business problems using AI & ML.
2. Learn to use popular AI & ML technologies like Python, Tensorflow and Keras to develop applications
3. Develop expertise in popular AI & ML technologies and problem-solving methodologies

Learning outcomes:
1. Students are able to develop AI & ML Projects.

P. S. Silpa.

CSE-HOD

Introductory session on data science workshop.

HOD Sir addressing the gathering.

Lecture delivery on day 2

Hands-on session during the workshops

Name of the Program: Certificate Course on "**Data Science**"
Resource Person: Mrs. P.S.Silpa, Assistant Professor, Dept.of.CSE
Duration: 18-11-2019 to 18-12-2019

Topics Covered

Session 1: Introduction to Data Science, ML & AI

Session 2: Jupyter Notebook – Installation & function

Session 3: Pandas

Session 4: NumPy

Session 5: Matplotlib, Seaborn

Session 6: Descriptive Statistics

Session 7: Probability & Conditional Probability, Probability Distributions

Session 8: Introduction to Supervised Learning, Linear Regression

Session 9: Multiple Variable Linear Regression, Logistic Regression

Session 10: Decision Trees

Session 11: Naive Bayes Classifiers

Session 12: k-NN Classification

Session 13: Support Vector Machines

Session 14: Feature Engineering and its importance

Session 15: Introduction to Unsupervised learning

Session 16, 17, 18: K-means Clustering Hierarchical Clustering

Session 19, 20, 21: Recommendation Systems

Session 22, 23, 24: Time-series Forecasting

Session 25, 26, 27: Model deployment

Session 28, 29, 30: Introduction to Neural Networks and Deep Learning

REPORT

Name of the Program: Short Term Course on AWS Cloud Computing

Duration: 27th NOV 2019 to 03rd DEC 2019

Resource Person Details: Mr. V Sree Kiran Babu

Managing Director, S.R.K. Software Consultancy

Madhuravada, Visakhapatnam.

E-mail:sreekiranbabu@gmail.com

Contact: +91-9440718191

Number of Students Attended: 128

Department of CSE organized a short term course on "**AWS Cloud Computing**" for II CSE Students by the resource person Mr. V Sree Kiran Babu from 27th NOV 2019 to 3rd DEC 2019. This short term program focuses on to enhance their theoretical knowledge in cloud services

Objectives:

1. To train the young researchers to identify the security and compliance benefits of by using the AWS Cloud.
2. To understand the access control and management features of AWS
3. To learn about data encryption methods to secure all types of sensitive data.

Learning outcomes:

1. Learnt control and management features of AWS
2. Understands data encryption methods to secure all types of sensitive data.

CIRCULAR

All IV ECE students are here by informed that the department of ECE is organizing a certificate course on **"Practical Aspects of Embedded Systems and IoT"** from 3.12.2019 to 4.1.2020. So, all the students are requested to attend the certificate course and make it successful.

Therefore, all IV ECE students are required to utilize this opportunity and take benefits of this course.

Department of Electronics and Communication Engineering

REPORT

Name of the Program: Practical Aspects of Embedded Systems & IoT

Duration: 3rd Dec 2019 to 4th Jan 2020

Resource Person Details:

Resource Person-1: Mr. Abhay.S.Bhardwaj, Senior Embedded Engineer, Fasal. Co.,Bangalore

Mr. Abhay is an Electronics & Communication graduate, currently working as a Senior Embedded Engineer at Fasal.co, Bangalore. He has 4+ years of experience in Embedded Systems development and developing scalable systems in IoT. He is a freelance developer and trainer and has conducted workshops and training sessions spanning 250+ hours till date to various colleges and corporates. He is also one among the most viewed writer on IoT in Quora.

Resource Person-2: Mr. Pavan Attavane,Director, Advitiya R & D Labs, Bangalore

Mr. Pavan is an Electronics & Communication graduate, IIT-B Alumni and an entrepreneur. His is currently the director of his startupAdvitiya Labs, Bangalore. His field of expertise includes robotics, Instrumentation and Embedded Systems. He was a senior technical project member in IIT-Bombay and also part of the organizing and research team of e-yantra between 2016 and 2017.

Number of Students Attended: 68

Certificate course on "Practical aspects of Embedded systems & IoT" is organized by Department of ECE in association with IEEE student chapter, PSCMRCET and Advitiya R & D Labs, Bangalore for one week.

The main objective is to train the students on modern industrial technology whilst embedding a sense of inquisitiveness towards the same, bridge the gap between academics and industrial applications and instill a level 1 foundation of their respective engineering core. A total of 68 students from IV year attended and benefited from this certificate course.

PRINCIPAL
Potti Sriramulu Chalavadi Mallikharjuna Rao
College of Engineering & Technology
Kothapet, VIJAYAWADA-520 001

Objectives:

- To introduce the Building Blocks of Embedded System
- To Educate in Various Embedded Development Strategies
- To Introduce Bus Communication in processors, Input/output interfacing.
- To impart knowledge in various processor scheduling algorithms.
- To introduce Basics of Real time operating system and example tutorials to discuss on one real time operating system tool

Topics Covered:

- Introduction to embedded systems, HW & SW components of embedded systems
- Signal conditioning, OPAMPs, ADC/DAC
- Embedded processor architectures
- FPGA design for embedded Systems
- Introduction to hardware-software co-design
- RTOS (Multitasking, Scheduling, Queue management, Interrupt management, Timers, Mailboxes, Semaphore)
- Introduction to Embedded Security

OUTCOMES:

- Acquire a basic knowledge about fundamentals of microcontrollers
- Acquire a basic knowledge about programming and system control to perform a specific task. Acquire knowledge about devices and buses used in embedded networking
- Develop programming skills in embedded systems for various applications.
- Acquire knowledge about basic concepts of circuit emulators.
- Acquire knowledge about Life cycle of embedded design and its testing.

A Two Week Certification Course on

"Electrical Design, Estimating & Costing"

All IV year students are here by informed that department of EEE is organizing a Two Week Certification Course On "Electrical Design, Estimating & Costing"will be held on 13-12-2019 to 26-12-2019 at 9:30am. So all the students of IV EEE are requested to attend the course given in the prescribed schedule and make it grand success.

Therefore all IV EEE students are required to utilize this opportunity to learn "Electrical Design, Estimating & Costing" concepts and take benefit of this Certification Course.

About the Institute

PSCMR College of Engineering & Technology is SKPVV Hindu High Schools Committee's latest contribution to the cause of education, this time in a new discipline Engineering & Technology. This shows the Committee's eagerness to promote education in as many different areas as possible. The Committee, a non-profit academic organization that had been managing very successfully only schools and arts & science colleges till 2008, then extended its educational service activities to technology education area, and that led to the starting that year, of Potti Sriramulu Chalavadi Mallikarjuna Rao College of Engineering & Technology, almost the first such institute within the Vijayawada city limits. The college is affiliated to JNTU (K) made a modest beginning with an intake of 240 students, 60 each in the branches of ECE, CSE, EEE and IT. MBA course was added the next year, that is, in 2008. Making steady progress, it has now on its rolls 1200 students in two sections of ECE and CSE each, and one section each in EEE and IT. In only its fourth year of functioning, the college has shown its potential for excellence in academics, as shown in the success rate of the students, and is making all out efforts to secure placement for its students. For a sound engineering education and assured post qualification career, PSCMRCET is among the best destination.

The institute is accredited by NAAC and its programmes (CSE, EEE, ECE) are accredited by National Board of Accreditation (NBA). The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

About the Department

EEE Department was founded with a threefold mission in teaching, research and public service. Based on that foundation, the mission of the Department in all major fields of electrical engineering, is to instill in students the attitudes, values, vision and training that will prepare them for lifetimes of continued learning and leadership, to develop the ability and passion to work wisely, creatively and effectively for the benefit of the society.

A Certification course

on

"Electrical Design, Estimating and Costing"

Venue: Mini Seminar Hall

Date: 28-12-2019

Summary report

Description:

A two week certification course on "Electrical Design, Estimating & Costing" is conducted in the department of Electrical and Electronics Engineering for IV EEE students on 13-12-2019 to 26-12-2019. Made the sessions lively and gave important information to the students regarding career opportunities in this area.

DEPARTMENT OF MANAGEMENT STUDIES

REPORT ON "SHORT TERM PROGRAM ON MICROSOFT EXCEL ESSENTIALS"

An IEE sponsored **SHORT TERM PROGRAM ON MICROSOFT EXCEL ESSENTIALS"**was conducted from **07 Jan 2020 to 12 Feb 2020 (30days)** by Mr. J. Naveen Gupta, Associate Professor in Department of Management Studies at Potti Sriramulu Chalavadi Mallikarjunarao College of Enginnering & Technology,Vijayawada. He explained the benefits of learning the formulas used in the Microsoft Excel and insist the terminology used. The job seekers need to be habituated with all these Microsoft tools, especially the MS- Excel.

Every student enrolled felt satisfied and learned the terminology, on the scheduled program and ensure that they can reach the tasks assigned to them on time – fulfilling the needs of the organization.

DEPARTMENT OF MANAGEMENT STUDIES

Outcome of the Program :

- Examine spreadsheet concepts and explore the Microsoft Office Excel environment.
- Create, open and view a workbook.
- Save and print workbooks.
- Enter and edit data.
- Modify a worksheet and workbook.
- Work with cell references.
- Learn to use functions and formulas.
- Create and edit charts and graphics.
- Filter and sort table data.
- Work with pivot tables and charts.
- Import and export data.

About the College:

PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY (PSCMR), established in the year 2008, is sponsored by **SKPVV – Sri Kanyaka Parameswari Vissamsetty Venkataratnam (SKPVV) Hindu High Schools Committee.** The society was formed by a group of philanthropists from business community of Vijayawada, Krishna District, Andhra Pradesh in the year 1906. They contributed their might and collected donations from the like minded people and started primary school to provide education to the poor students of local area and surrounding villages, where there were no schools at that time. The society was registered with the Register of Krishna District on 27th November 1915.

PSCMRCET has been in the forefront imparting high quality technical education. State of the art infrastructure in all branches of engineering, dedicated and qualified staff, highly conducive environment for teaching-learning process are the hallmarks of this professionally managed institution.

The institute is accredited by NAAC and its programmes are accredited by National Board of Accreditation (NBA). The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

About the Department:

The Department of Mechanical Engineering offers Diploma and B.Tech programs in **Mechanical Engineering**. It was established in the year 2013 with the current annual intake of 120 students. The vision of the department is to provide competent engineers who are innovative, entrepreneurial and successful.

About the Certificate Course:

- Java is a powerful general-purpose programming language. It is used to develop desktop and mobile applications, big data processing, embedded systems, and so on. Java works on different platforms (Windows, Mac, Linux, Raspberry Pi, etc.)
- It is one of the most popular programming language in the world
- It has a large demand in the current job market
- It is easy to learn and simple to use
- It is open-source and free
- It is secure, fast and powerful
- It has a huge community support (tens of millions of developers)
- Java is an object oriented language which gives a clear structure to programs and allows code to be reused, lowering development costs

DEPARTMENT OF MECHANICAL ENGINEERING

Report on A Three week certificate course on "JAVA"

(20-01-2020 to 08-02-2020)

The Department of Mechanical Engineering, PSCMRCET has conducted A Three week certificate course on "JAVA" for which the resource person is Dr.D.Durga Prasad, Professor, Department of CSE, PSCMRCET for IV year MECH students from 20-01-2020 to 08-02-2020

Java is a programming language and computing platform first released by Sun Microsystems in 1995. It has evolved from humble beginnings to power a large share of today's digital world, by providing the reliable platform upon which many services and applications are built. New, innovative products and digital services designed for the future continue to rely on Java, as well.

While most modern Java applications combine the Java runtime and application together, there are still many applications and even some websites that will not function unless you have a desktop Java installed. Java.com, this website, is intended for consumers who may still require Java for their desktop applications – specifically applications targeting Java 8. Developers as well as users that would like to learn Java programming should visit the dev.java website instead and business users should visit oracle.com/java for more information.

Around 109 students from IV year attended the training program which will be very useful once they enter into any industry. A few faculty members from Mechanical Engineering department also attended this training program along with the students.

Outcomes:

1. Write programs for solving real world problems using java collection frame work
2. Write programs using abstract classes
3. Write multithreaded programs.

The Department of Mechanical Engineering offers Diploma and B.Tech programs in **Mechanical Engineering**. It was established in the year 2013 with the current annual intake of 120 students. The vision of the department is to provide competent engineers who are innovative, entrepreneurial and successful.

About the Certificate Course:

HTML stands for HyperText Markup Language. It is used to design web pages using a markup language. HTML is the combination of Hypertext and Markup language. Hypertext defines the link between web pages. A markup language is used to define the text document within the tag which defines the structure of web pages. This language is used to annotate (make notes for the computer) text so that a machine can understand it and manipulate text accordingly. Most markup languages (e.g. HTML) are human-readable. The language uses tags to define what manipulation has to be done on the text. HTML is a markup language used by the browser to manipulate text, images, and other content, in order to display it in the required format.

DEPARTMENT OF MECHANICAL ENGINEERING

Report on A Three week certificate course on "HTML"

(20-01-2020 to 08-02-2020)

The Department of Mechanical Engineering, PSCMRCET has conducted A Three week certificate course on "HTML" for which the resource person is Ch.B.V.Durga, Assistant Professor, Department of CSE, PSCMRCET for I year MECH students from 20-01-2020 to 08-02-2020.

HTML stands for HyperText Markup Language. It is used to design web pages using a markup language. HTML is the combination of Hypertext and Markup language. Hypertext defines the link between web pages. A markup language is used to define the text document within the tag which defines the structure of web pages. This language is used to annotate (make notes for the computer) text so that a machine can understand it and manipulate text accordingly. Most markup languages (e.g. HTML) are human-readable. The language uses tags to define what manipulation has to be done on the text. HTML is a markup language used by the browser to manipulate text, images, and other content, in order to display it in the required format.

Around 29 students from I year attended the training program which will be very useful once they enter into any industry. A few faculty members from Mechanical Engineering department also attended this training program along with the students.

Outcomes:

1. Insert a graphic within a web page.
2. Create a link within a web page.
3. Create a table within a web page.
4. Insert heading levels within a web page.
5. Insert ordered and unordered lists within a web page.
6. Use cascading style sheets.
7. Create a web page.

About the College:

PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY (PSCMR), established in the year 2008, is sponsored by **SKPVV – Sri Kanyaka Parameswari Vissamsetty Venkataratnam (SKPVV) Hindu High Schools Committee.** The society was formed by a group of philanthropists from business community of Vijayawada, Krishna District, Andhra Pradesh in the year 1906. They contributed their might and collected donations from the like minded people and started primary school to provide education to the poor students of local area and surrounding villages, where there were no schools at that time. The society was registered with the Register of Krishna District on 27th November 1915.

PSCMRCET has been in the forefront imparting high quality technical education. State of the art infrastructure in all branches of engineering, dedicated and qualified staff, highly conducive environment for teaching-learning process are the hallmarks of this professionally managed institution.

The institute is accredited by NAAC and its programmes are accredited by National Board of Accreditation (NBA). The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

About the Department:

The Department of Mechanical Engineering offers Diploma and B.Tech programs in **Mechanical Engineering.** It was established in the year 2013 with the current annual intake of 120 students. The vision of the department is to provide competent engineers who are innovative, entrepreneurial and successful.

About the Certificate Course:

English is one of the widely spoken languages around the world. For an engineer and an engineering student, English language fluency is important both in studies and career. Engineering is one of the largest fields of study and many of the works of research and academics are recorded in English. Without fluency in English, engineering students may find it difficult to understand the concept being conveyed by the authors. Also, many modules in engineering require writing academic reports. Hence, a good fluency and grasp of English language is necessary.

DEPARTMENT OF MECHANICAL ENGINEERING

Report on A Three week certificate course on "Corporate Builders"

(10-2-2020 to 29-2-2020)

The Department of Mechanical Engineering, PSCMRCET has conducted A Three week certificate course on "Corporate Builders" for which the resource person is Dr. A. Rama Devi, Professor of English, PSCMRCET for III year MECH students from 10-2-2020 to 29-2-2020.

English is one of the widely spoken languages around the world. For an engineer and an engineering student, English language fluency is important both in studies and career. Engineering is one of the largest fields of study and many of the works of research and academics are recorded in English. Without fluency in English, engineering students may find it difficult to understand the concept being conveyed by the authors. Also, many modules in engineering require writing academic reports. Hence, a good fluency and grasp of English language is necessary.

Basic reasons why an Engineer should be fluent in English are as follows:

In a student's social life, English language is most important. It helps to build strong relationship and better understanding among fellow students and peers. For success in any field, one has to know, understand and communicate effectively. In the era of liberalisation, privatisation and globalisation, communication skills are the key to success. The English language is now a bridge language of international business, technology, research and aviation. About 1.8 billion speak English and the number is still rising.

Around 94 students from III year attended the training program which will be very useful once they enter into any industry. A few faculty members from Mechanical Engineering department also attended this training program along with the students.

Outcomes:

1. Will get fundamental knowledge of about behavioral skills.
2. Will be write emails, presentations,communication skills.

About the Certificate Course:

Solar photovoltaic modules are where the electricity gets generated, but are only one of the many parts in a complete photovoltaic (PV) system. In order for the generated electricity to be useful in a home or business, a number of other technologies must be in place. Solar power system is one of the best renewable energy technology which is not only cost effective but environment friendly as well. For research, suggested methodologies that may be applicable to other off grid applications

DEPARTMENT OF MECHANICAL ENGINEERING

Report on A Two week certificate course on "Designing of solar energy pv systems"

(03-03-2020 to 17-03-2020)

The Department of Mechanical Engineering, PSCMRCET has conducted a A Two week certificate course on " Designing of solar energy pv systems " for which the resource person is V.Brahmeswara Rao, Assistant Professor, Department of EEE, PSCMRCET from 03-03-2020 to 17-03-2020for the third year Students.

Solar photovoltaic modules are where the electricity gets generated, but are only one of the many parts in a complete photovoltaic (PV) system. In order for the generated electricity to be useful in a home or business, a number of other technologies must be in place

Around 126 students from II year attended the training program which will be very useful once they enter into the software industry. A few faculty members from Mechanical Engineering department also attended this training program along with the students.

Outcomes:

1. Will get fundamental knowledge of PV System.
2. Understand the energy conversion from sunlight to electricity ,and working with solar conversion equipment .
3. Will get the book knowledge and hands on experience needed to become entrepreneur.

CIRCULAR

All II year ECE students are here by informed that the department of ECE is organizing a certificate course on **"SCILAB"** from 25.5.2020 to 26.6.2020. So, all the students are requested to attend this course and make it successful.

       Therefore, all students are required to utilize this opportunity and take benefits of this course.

ABOUT THE INSTITUTION

PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY (PSCMR), established in the year 2008, is sponsored by **SKPVV – Sri Kanyaka Parameswari Vissamsetty Venkataratnam (SKPVV) Hindu High Schools Committee.** The society was formed by a group of philanthropists from business community of Vijayawada, Krishna District, Andhra Pradesh in the year 1906. They contributed their might and collected donations from the like minded people and started primary school to provide education to the poor students of local area and surrounding villages, where there were no schools at that time. The society was registered with the Register of Krishna District in 27th November 1915.

PSCMRCET has been in the forefront imparting high quality technical education. State of the art infrastructure in all branches of engineering, dedicated and qualified staff, highly conducive environment for teaching-learning process are the hallmarks of this professionally managed institution.

The institute is accredited by NAAC and its programs are accredited by National Board of Accreditation (NBA). The institute is affiliated to Jawaharlal Nehru Technological University, Kakinada (JNTUK).

A Certificate Program on

SCILAB & ITS APPLICATIONS

25.5.2020 to 26.6.2020

Organized by
DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING
(NBA Accredited)
PSCMR COLLEGE OF ENGINEERING & TECHNOLOGY
Vijayawada, Andhra Pradesh
Website: www.pscmr.ac.in.

ABOUT THE DEPARTMENT

The department offers UG program in **Electronics and Communication Engineering**. The department has qualified, dedicated, experienced and trained faculty with deep sense of commitment towards the students and institution. Teaching faculty with proficiency in various subjects motivates students to participate in research activities and skill development programs. The department has state of the art laboratories with well-equipped hardware and software.

ABOUT THE PROGRAM

This program aims at Scilab, famous open-source scientific computation software, can be used to test algorithms or to perform numerical computations. Scilab also provides many numerical methods and is very easy to use even for people without prior programming experience.

TOPICS TO BE COVERED

- Variable and memory management
- Memory limitations from Scilab
- Special data types
- Hyper matrices
- Type and dimension of an extracted hyper matrix
- Limitations of positional arguments
- The array of the cell data type
- Default values of optional arguments
- Functions with variable type input arguments
- Robust functions

- Overview of the scope of variables
- Poor function: an ambiguous case
- Poor function: a silently failing case
- Issues with call-backs
- Basic uses
- Linear matrix indexing
- Boolean matrix access
- Repeating rows or columns of a vector
- Combining vectorized functions
- Optimized linear algebra libraries
- Installing optimized linear algebra libraries for Scilab on Windows

OBJECTIVE OF THE PROGRAM

- The main objective is to train the students on SCILAB and also to understand the applications of SCILAB in the real time world.
- The students were given theoretical as well as practical training on the related concepts, so that they can understand more effectively.

Department of
Electronics and Communication Engineering

Date: 27.6.2020

REPORT

Name of the Program: Certificate course on SCILAB

Duration: 25.5.2020 to 26.6.2020

Resource Person Details: Dr. A. Ravi, Head of ECE Department, PSCMRCET

Mr.G.V. Ramanaiah, Associate Professor of ECE Department

Ms. N. Mounika, Assistant Professor of ECE Department,

PSCMRCET

Numberof Students Attended: 97

The department of Electronics and Communication Engineering organized a Certificate course on SCILAB in association with IETE from 25.5.2020 to 26.6.2020.

The Resource speakers Dr. A. Ravi, Head of ECE Department, hearty welcomed the participants and K Nageshwar Rao, Principal addressed the participants.

Because of Covid-19, Workshop was conducted virtually. Participants are allowed to register through the google form "https://forms.gle/i6ZJQfgX56XxaGUX7"

Mr.G.V. Ramanaiah delivered the lecture on Examples of SCILAB and conducted hands on section with different examples.

PRINCIPAL
Potti Sriramulu Chalavadi Mallikharjuna . .
College of Engineering & Technology
Kothapet, VIJAYAWADA-520 001.

Dr. A. Ravi delivered the lecture on the importance of SCILAB. He also explained about the introduction, operators used and various functions used in SCILAB. He discussed about various real time scenarios.

SCILAB Built-in functions explained by Resource Person

He gave brief idea about how to identify the problems from engineering applications. He motivated the students to do projects and improve their carrier opportunities.

As per the feedback received from the participants it was a very good learning experience, the lecture helped them in understanding the basics of SCILAB and how to apply the concepts learned in their curriculum to do projects.
