Summary:

1. **How appropriate is the curriculum and syllabus content for your placement / higher education**

   - Out of 127 students 96 respondents said that the curriculum is the essential ingredient of any education system regardless of the education level. Curricular aspects and the best practices connected to curriculum design and development play a very significant dimension of the quality of higher education since the curriculum has a decisive role in steering the other elements of quality and only 6 students said good. It is shown that 765.59%of students opined Excellent.

2. **Experiential learning of the courses**

   - 102 respondents said that the Experiential Learning is the process of learning by doing. By engaging students in hands-on experiences and reflection, we are better able to connect theories and knowledge learned in the classroom to real-world situations only 13 students opined good. It is shown that 80.31% of students opined excellent.

3. **The transparency of the academic processes of the institute**

   - 84.25 % of respondents said that the transparency in higher education allows potential employers to assess the meaning of the college grades of potential employees, allowing them to determine academic caliber of that potential employee. It is shown that out of 127 107 opined excellent only 7% of students opined good.
